Catch-up and Crisis in Korea Dec 04 2020 Korea has experienced one of the most profound economic transformations of any nation in history, and remains a very important focus of academic inquiry. Whilst the process of catch-up in Korea - led by export-oriented growth - has been rapid and, in a sense, very successful, it has also been subject to turbulence, not least in a crisis of near bankruptcy that has dramatically revealed its Achilles heel. Informed by the 1997 crisis, Wontack Hong writes a new history of the Korean economy; one that seeks to understand export-oriented catch-up in newly industrialized countries (NICs) whilst offering a realistic appraisal and forewarning of the pitfalls which could signal self-destruction. Catch-up and Crisis in Korea offers a balanced perspective on the Korean economy, and on newly industrialized countries in general, for those who have a serious interest in understanding the industrialization process.

Wake Up, Grow Up, Show Up Jan 17 2022 My handwriting is not the only thing that suffered in the throes of my addiction, but it was a physical indication and a perfect metaphor of what my life was like. It was extremely messy and impossible to read. Impulse control was gone, and insanity had consumed my soul. The poems in this book outline the progression of one addict's recovery throughout the rehabilitation process emotionally, physically, and spiritually. My hope is that any addict or alcoholic will know that recovery is possible. There is hope for a better life.

Stand Up Paddle Board Racing for Beginners Sep 13 2021 "Stand Up Paddle Board Racing for Beginners" is the perfect newbie's guide to preparing for your first paddle board race. Paddle boarding takes certain equipment and it can be intimidating to even think about entering a competition, so this provides a great place to start. There is a lot of information out there and training guides geared towards advanced paddle boarders, but nothing really for the beginner. This is a nice, easy introduction to the basics of paddle boarding and how that relates to training for a race. In this guide, learn about: - Why I wrote this book - Different water to train in and how their altitude affects training (specifically in Lake Tahoe, USA) - Finding the right coach - Access to water and why people paddle board - The basics of paddle boarding - Finding the right kind of paddle board for your race - The best paddles and other accessories for your competition - What to wear - When to start training - Know how much time you have to train - Developing balance, strength and endurance - Paddle stroke techniques - Safety: the key to having fun - What to expect on race day - Takeaways from my first races - Tips and tricks - My personal training diary and additional resources About the Expert Residing in Lake Tahoe, California, Kayla works for one of the best stand-up paddleboard rental/coffee shops in the nation called Waterman's Landing. There, she has access to some of the best paddle boards, the water, and two elite paddle board racers. In autumn 2017, she started seriously training for her first paddle board race and took third out of six people in Mike's Sunday Fun Race. In the duration of her training, she ended up shaving 6-8 minutes off of her average distance time. Although she is nowhere near being an elite athlete, Kayla is still paddle board racing and working up the ranks. Power up Your Self-Talk Nov 15 2021 Empower Your Life Despite All of Your Problems What if shame, guilt, inadequacy, low self-esteem and painful memories of your past failures no longer plagued your mind? What if you could take full control of your life and achieve the goals and success you always yearned for with just a few easy habits? "When we tell ourselves something is too hard, or easy, or that we are successes or failures, it's self-talk." Six years ago, the prevailing thought in Michal's mind was: "It's impossible." His life attitude was "just get by," and his mind was eroded by the memories of his failures. Today, he is a bestselling author who liberated his wife from her day job, and spends most of his days empowering fellow authors and millions of readers around the globe. In "Power Up Your Self-Talk," he shares the simplest techniques that helped him and his readers to overcome the sneaky (and often brutal) self-sabotage of the mind. In this book you will learn: Why you failed so many times despite your best intentions (and how to change this) How to instantly elevate your mood to escape obstinate dark thoughts Which elephant in the room self-help gurus fail to address in most of their teachings How to overcome the resistance of years of faulty thinking Why habits are the best remedy against negative self-talk The undervalued habit that everyone can practice and tune into their self-talk (would you believe it can create new brain cells?!) The one thing you need before you can apply all the great personal development advice The easiest way to quickly rewire your brain into positivity How to steer your self-talk so self-insults and vicious internal remarks will no longer cripple your performance Two cardinal rules for preparing your battle plan with your subconscious Bonus: no bonuses! Just pure content in concise format to get you started in only moments. Power up your self-talk, empower your life and stop being your own worst enemy. Catching Up and Falling Behind Apr 20 2022 In this collection of essays David A Dyker explores some of the most difficult and fascinating aspects of the process of transition from autocratic "real socialism" to a capitalism that is sometimes democratic, sometimes authoritarian. The stress is on the economic dimension of transformation, but the author sets the economic drama firmly within a political economy framework and a historical perspective. Trends in key economic variables are analysed against the background of the struggle between different social and political groups for power and command over resources. While the book pays due attention to topical issues like EU enlargement, the underlying perspective is a long-term one. Transition is viewed not as a set of once-and-for-all institutional changes or a process of short-term stabilisation, but as a historic opportunity to solve the inherited problem of poverty and underdevelopment in Central-East Europe and the former Soviet Union. The book ends with a critical assessment of how economics, as a discipline, has coped with the challenge of that historic opportunity. Contents:The Political Economy of TransitionTransition and the Global EconomyThe East European Countries and the European UnionTechnology and TransitionPatterns and ProspectsBy Way of Conclusion Readership: Social scientists with interest in transition countries; transition and East Europe specialists; public policy bodies and international aid communities; undergraduates who major in social science. His latest book proves this in a very clear way ... the book of David Dyker is one of the best that was written on transition economies and it could be highly recommended to all who are interested in these issues of transition.”Dr Igor Yegorov National Academy of Sciences of Ukraine “This book attempts to interpret the economic and historical implications of transition within the framework of catching up industrialization, and this reviewer basically agrees with the arguments of the book. In sum it provides a basis for a detailed reconsideration of the concepts of catching up and social capability.”The Developing Economies

How Sex Got Screwed Up: The Ghosts that Haunt Our Sexual Pleasure - Book Two Jul 11 2021 The ghosts that haunt our sexual pleasure were born in the Stone Age. Sex and gender taboos were used by tribes to differentiate themselves from one another. These taboos filtered into the lives of Bronze and Iron Age men and women who lived in city-states and empires. For the early Christians, all sex play was turned into sin, instilled with guilt, and punished severely. With the invention of sin came the construction of women as subordinate beings to men. Despite the birth of romance in the late middle ages, Renaissance churches held inquisitions to seek out and destroy sex sinners, all of whom it saw as heretics. The Age of Reason saw the demise of these inquisitions. But, it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime, degeneracy, and sickness. The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists, such as Alfred Kinsey and Margaret Sanger, sought to carve out a place for sexual freedom in society. However, strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence. Book Two of this two-part publication traces the history of sex from the Victorian Era to present day. Interspersed with ‘personal hauntings’ from his own life and the lives of friends and relatives, Knowles reveals how historical discourses of sex continue to haunt us today. This book is a page-turner in simple and plain language about ‘how sex got screwed up’ for millennia. For Knowles, if we know the history of sex, we can get over it.

The Start-up PUSH Oct 26 2022 This book explores, documents and establishes how to help founders start businesses with the collaboration of local and international resources. An incubator, accelerator or science park all have this goal but provide a variety of foci and support. At a minimum, it’s important to not only attract entrepreneurs but to have support services that can include mentoring, financial support and other services that make the incubator really filled with energy and potential. It’s becoming insufficient to just have office space and WiFi. It is also important to develop good interactions between directors, the start-up community and residents. Managing the community to help residents to launch successfully is the main goal of the director. It’s also important to stay abreast of the innovations happening in start-up support. Today there are many ways to incubate from bare bones office space to Incubator 1.0 space with some support to Incubator 2.0 with a great deal of support including a fund. For that reason, it’s important to develop a clear strategy for the type, style, clientele and support that will be built. This book provides guidance in three main areas: 1) What are the different options for incubators, accelerators and science parks, 2) How to assist the start-up founders (residents) and 3) How to manage the space.
