[Critical Care Medicine MCQs Practice Book](#) Jun 29 2022

[MCQs for the MFFP, Part One](#) Jan 31 2020 Here are 120 multiple choice questions on family planning and reproductive health care. Each question has been carefully selected to reflect the syllabus of the new Part 1 examination for Membership of the Faculty of Family

Planning and Reproductive Healthcare (MFFP). Almost all the questions are accompanied by an extended answer. In this way, as well as providing a useful revision aid for examinations, the book is also educationally stimulating for anyone wishing to improve and test their knowledge of family planning and reproductive healthcare. The questions have been divided in three major sections: Applied Sciences; Contraception; and Reproductive Healthcare. This book will be an ideal training and revision tool for candidates for the professional exams such as the new MFFP as well as the MRCOG and MRCGP. It will also provide a useful aid to anyone who wishes to update their understanding of these important topics in reproductive medicine.

Best of Five MCQS for the European Specialty Examination in Gastroenterology and Hepatology Apr 03 2020 The new edition of The Best of Five MCQS for the European Specialty Examination in Gastroenterology and Hepatology is a question book designed to assist in preparations for the ESEGH. The book has been fully updated to reflect the structure and content of the new examination introduced in 2018 and the most recent guidelines.

MCQs and SBAs in Intensive Care Medicine Sep 01 2022 Prepare with confidence for the FFICM and EDIC with this dedicated guide featuring 300 original multiple choice (MCQ) and single best answer questions (SBAs) covering the whole FICM curricula. Organized into ten practice papers so readers can practice the style and format of the real exam, questions cover a broad range of intensive care topics for postgraduate exams. Each answer includes a full explanation, up-to-date evidence-based guidelines and sources for further reading to ensure high-quality self-assessment. Written by a team of consultants, these original and high-quality questions have been developed over years of clinical experience. This invaluable resource provides intensive care medicine trainees with an ideal companion for the FFICM and EDIC and other postgraduate critical care exams.

Medical-Surgical Nursing at a Glance Aug 08 2020 Medical-Surgical Nursing at a Glance is the perfect companion for study and revision for nursing and healthcare students from the publishers of the market-leading at a Glance series. This easy-to-read, accessible guide brings together all the key principles of caring for patients with medical and surgical needs. Highly visual, each topic is covered in one two-page spread, making it easy to quickly read up on key information and grasp the essentials of the key aspects of caring for the adult patient. A clear and accessible foundation of the need to know aspects of medicine and surgery for nurses Takes a systems approach exploring nursing care of key medical and surgical conditions and disorders Covers assessment, nutrition, pain, infection control Supported by a companion website with over 300 interactive multiple choice questions Provides need-to-know information in a quick-reference format Written from a UK perspective, with application to clinical practice A

companion website is available at www.ataglanceseries.com/nursing/medsurg featuring interactive multiple choice questions Medical-Surgical Nursing at a Glance is ideal for nursing students looking for a clear and visual summary of care of the adult patient.

Best of Five MCQs for the Acute Medicine SCE Dec 24 2021 Best of Five MCQs for the Acute Medicine SCE is a new revision resource designed specifically for this high-stakes exam. It contains over 350 Best of Five questions with explanatory answers, each accurately reflecting the layout of questions in the exam.

Get Through MCEM Part A: MCQs Sep 28 2019 Designed for candidates preparing for the MCEM Part A exam, Get Through MCEM Part A: MCQs provides invaluable revision for this new exam, success in which is obligatory for entry into higher specialist training in Emergency Medicine. Over 400 practice questions are presented reflecting the format and content used in the actual exam. Useful revision tips and practical advice on the format of the exam, plus techniques for answering questions are provided to develop candidates' exam skills and build up confidence in readiness for the exam day. Three complete mock exams provide the ultimate last minute revision tool. All the answers are supported with detailed explanations to allow the candidate to assess and supplement their own level of knowledge, and target areas of weakness. Get Through MCEM Part A: MCQs is comprehensive and authoritative: all authors are practising emergency physicians. Featuring questions that specifically address all areas of the College of Emergency Medicine's curriculum, this is the essential revision book for all candidates preparing for the Part A exam. It also provides valuable revision for trainees sitting the FCEM exam and for medical students revising for clinical exams.

Acute and Critical Care Nursing at a Glance Jun 25 2019 From the publishers of the market-leading at a Glance series comes a comprehensive yet accessible overview of all the fundamental elements of acute and critical care nursing. Acute and Critical Care Nursing at a Glance provides an introduction to the key knowledge and skills for patient assessment and problem identification, as well as how to plan, implement and evaluate care management strategies. It also explores clinical decision-making processes and their impact on care delivery, as well as key psychosocial issues, pain management, and safe transfer. All information is presented in a clear, double-page spread with key information accompanied by tables, illustrations, photographs and diagrams. Key features: Superbly illustrated, with full colour illustrations throughout An accessible, evidence-based, introduction to a complex topic Presents information structured according to the Resuscitation Council's systematic ABCDE framework for ease of understanding Accompanied by patient case studies to help apply theory to practice Acute and Critical Care Nursing at a Glance is ideal for

nursing students, healthcare assistants, and registered nurses working within the acute and critical care setting.

Critical Care MCQs Nov 03 2022 "Critical Care MCQs" is the perfect companion for anyone sitting exams in intensive care, as a training resource or just wanting to improve their knowledge in this constantly developing area of medical practice. Written by critical care doctors with experience of UK and European examination formats, this book leads the reader through 450 true/false questions with referenced explanations, covering core syllabus topics and key influential papers to date. A detailed list of further resources and recommendations relevant to critical care revision is also provided to enable readers to further their knowledge and understanding. It is hoped that this book will prove invaluable for preparation and success in upcoming intensive care exams for both candidates and trainers. This book would be useful for not only candidates sitting the UK Final Fellowship of Intensive Care Medicine (FFICM) and European Diploma of Intensive Care (EDIC) exams, but also the Indian Diploma in Critical Care Medicine (IDCCM), the Diploma of the Irish Board of Intensive Care Medicine (DIBICM), the Australia and New Zealand Fellowship of the College of Intensive Care Medicine (CICM), American Board and any other examinations related to intensive care.

Acute and Critical Care Echocardiography Apr 15 2021 'Acute and Critical Care Echocardiography' is the first practical guide dedicated to helping doctors use transthoracic echocardiography to manage acutely and critically ill patients. The text provides readers with a grounding in theoretical evidence-based aspects of critical care echocardiography. The work is mapped to the new accreditation syllabus in Advanced Critical Care Echocardiography set by the British Society of Echocardiography, ensuring that it is relevant to professional standards and teaches doctors exactly what they need to know. Self-assessment questions help readers retain what they have learned and revise for exams

Best of Five MCQs for the Endocrinology and Diabetes SCE Oct 10 2020 Prepare with confidence for the Endocrinology and Diabetes Speciality Certificate Examination with this dedicated revision guide containing over 300 best of five questions covering the main themes of the curriculum. The questions mirror the format that the candidates can expect to find in the exam and cover all of the key topics, including pituitary and hypothalamus gland, thyroid gland, bone disease, adrenal glands, diabetes, and lipid metabolism. Explanatory answers include references to guidelines and other sources to enable further reading and study. Providing a thorough assessment of the reader's endocrinological knowledge, this is the only revision book candidates will need to pass the Endocrinology and Diabetes Speciality Certification Examination first time.

Best of Five MCQs for the Gastroenterology SCE

Nov 30 2019 The first

revision book designed specifically for the Gastroenterology Specialty Certificate Examination, this book contains 210 'best of five' questions with explanatory answers, each of which accurately reflect the layout of questions in the exam.

Best of Five MCQs for the MRCP Part 1 Volume 2 Jan 01 2020 Offers a comprehensive and trustworthy solution to anybody wishing to sit, pass, and excel at the Membership of the Royal College of Physicians Part 1 examination. Presented as a unique three-volume set, each volume features 375 high-quality practice questions on each of the medical systems and specialties in alphabetical order.

Critical Care MCQs Aug 20 2021 Critical Care MCQs is the perfect companion for anyone sitting exams in intensive care, as a training resource or just wanting to improve their knowledge in this constantly developing area of medical practice. Written by critical care doctors with experience of UK and European examination formats, this book leads the reader through 450 true/false questions with referenced explanations, covering core syllabus topics and key influential papers to date. A detailed list of further resources and recommendations relevant to critical care revision is also provided to enable readers to further their knowledge and understanding. It is hoped that this book will prove invaluable for preparation and success in upcoming intensive care exams for both candidates and trainers. This book would be useful for not only candidates sitting the UK Final Fellowship of Intensive Care Medicine (FFICM) and European Diploma of Intensive Care (EDIC) exams, but also the Indian Diploma in Critical Care Medicine (IDCCM), the Diploma of the Irish Board of Intensive Care Medicine (DIBICM), the Australia and New Zealand Fellowship of the College of Intensive Care Medicine (CICM), American Board and any other country-related intensive care exams.

Paediatrics at a Glance Aug 27 2019 Paediatrics at a Glance provides an introduction to paediatrics and the problems encountered in child health as they present in primary, community and secondary care, from birth through to adolescence. Thoroughly updated to reflect changes in understanding of childhood illness over the last 5 years, the 4th edition of this best-selling textbook diagrammatically summarises the main differential diagnoses for each presenting symptom, while accompanying text covers important disorders and conditions as well as management information. Paediatrics at a Glance:

- Is an accessible, user-friendly guide to the entire paediatric curriculum
- Features expanded coverage of psychological issues and ethics in child health
- Includes more on advances in genetics, screening and therapy of childhood illness
- Contains new videos of procedures and concepts on the companion website
- Includes a brand new chapter on Palliative Care - an emerging area in the specialty
- Features full colour artwork throughout
- Includes a companion website at www.ataglanceseries.com/paediatrics featuring interactive self-

assessment case studies, MCQs, videos of the procedures and concepts covered in the book, and links to online resources Paediatrics at a Glance is the ideal companion for anyone about to start a paediatric attachment or module and will appeal to medical students, junior doctors and GP trainees as well as nursing students and other health professionals.

MCQs in Critical Care Feb 23 2022

Revision Notes in Intensive Care Medicine Oct 29 2019 Revision Notes in Intensive Care Medicine is a key resource for candidates preparing for postgraduate intensive care examinations. Mapped to the FFICM, EDIC and FCICM syllabuses, this title ensures candidates have all the information needed to prepare for their examinations. Information is presented in concise note form and bullet points with visually memorable tools, such as tables and diagrams, making revising and retaining key facts easier. Chapters are arranged into physiological systems, such as 'Respiratory Intensive Care' and 'Obstetric Intensive Care', and are subdivided into major clinical issues within each chapter so specific areas of further study can be found easily. Drawing from the authors' experiences as successful candidates, and carefully reviewed by consultants, Revision Notes in Intensive Care Medicine provides the foundation for postgraduate intensive care exam revision.

Short Answer Questions and MCQs in Anaesthesia and Intensive Care, 2Ed Nov 22 2021 Following on from the success of the first edition, Short Answer Questions and MCQs in Anaesthesia and Intensive Care has been completely rewritten to reflect the changes to the final FRCA exam from a long essay based examination to compulsory short answer questions (SAQs). This guide aims to introduce methods and systems of answering questions succinctly and accurately. Almost all of the questions have been asked in the final FRCA since 1996 and most chapters carry more detail than required to reach a pass standard. The new edition takes a question-orientated approach and provides guidance for the final exam. Given the short time allowed for answering the SAQs, previous practice, prior to sitting the examination, is essential. Each of the twelve sections has a comprehensive set of multiple choice questions (MCQ) to the same standard as those set by the Royal College of Anaesthetists. It is vital that candidates practice MCQs as well as SAQs, and the ninety multiple choice questions that follow the SAQ paper carry just as much weight as the SAQ paper. The book has been structured as topic based sections and chapters, each of which can be followed and used to enable self-testing. This book is an invaluable revision aid during preparation for the final FRCA exam and, due to the breadth of content, also forms a useful ready reference throughout anaesthetic training.

MCQs in Travel Medicine Jun 05 2020 MCQs in Travel Medicine contains over 600 multiple choice questions with detailed explanations which

both teach and challenge the reader. In an easy-to-read format this book is ideal for practitioners in busy day-to-day practices and those preparing for examinations in travel medicine.

Intensive Care Medicine MCQs May 17 2021 Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

Short Answer Questions and MCQs in Anaesthesia and Intensive Care,
2Ed Jan 25 2022 Following on from the success of the first edition, Short Answer Questions and MCQs in Anaesthesia and Intensive Care has been completely rewritten to reflect the changes to the final FRCA exam from a long essay based examination to compulsory short answer questions (SAQs). This guide aims to introduce methods and systems of answering questions suc

Nursing Evidence-Based Practice Skills Jun 17 2021 Nursing students require a unique guide to research and evidence based practice (EBP) to help them succeed in both the classroom and the clinical area. This book is a one-stop-shop of the theory and practice of EBP including practical tips for assignments and placements.

Illuminating the Diversity of Cancer and Palliative Care Education
Feb 11 2021 Illuminating the Diversity of Cancer and Palliative Care

Education examines a myriad of original approaches, techniques, methods, educational strategies and imaginative innovations within this vital field of medicine. Its contributors share a range of educational techniques and tactics from Neuro-Linguistic Programming to creative teaching strategies for bereavement support, allowing readers to reflect on best practice and inventive ways of working which can be used or adapted to suit. This book is an ideal companion to its sister volumes *Innovations in Cancer and Palliative Care Education* and *Delivering Cancer and Palliative Care Education*.

Dementia Care at a Glance ____ Mar 15 2021 *Dementia Care at a Glance* is the perfect companion for health and social care professionals, nurses, students as well as family members and voluntary workers needing information and guidance about dementia care. Taking a person-centred and interpersonal approach, each chapter outlines an aspect of the experience of living with dementia and the steps that the nurse or healthcare professional can take to support them. This comprehensive book will assist readers to respond effectively, sensitively and with compassion to people living with dementia in acute settings, as well as in care environments and at home. It acknowledges the challenges that arise for people with dementia, family members and professionals and offers practical solutions based on current thinking and best practice. Presented in the bestselling *at a Glance* format, with superb illustrations and a concise approach Covers the common forms and manifestations of dementia, their causes, and how to address them Addresses a wide range of topics including, interventions, communication, care planning, medication, therapy, leadership as well as ethical and legal issues Takes a positive holistic approach, including not only physical and mental health issues but social and spiritual implications and a person-centred focus throughout Suitable for students on a range of healthcare courses Supported by a companion website with multiple-choice questions and reflective questions

Achieving Cultural Competency ____ Jul 19 2021 *Achieving Cultural Competency: A Case-Based Approach to Training Health Professionals* provides the necessary tools to meet the ever-growing need for culturally competent practitioners and trainees. Twenty-five self-study cases cover a variety of medical topics, including cardiovascular, pulmonary, neurology, oncology, hematology, immunology, and pediatric disorders. Actual scenarios that occurred in clinical settings help the user gain direct insight into the realities of practice today. Cultural factors covered within the cases include cultural diversity plus gender, language, folk beliefs, socioeconomic status, religion, and sexual orientation. This book is an approved CME-certifying activity to meet physicians' cultural competency state requirements. Get 25 pre-approved self-study American Dietetic Association credits at no additional charge when you purchase the book. Email hark@lisahark.com for further instructions.

Emergency Nursing at a Glance Sep 20 2021 From the publishers of the market-leading at a Glance series comes a wide-ranging and succinct overview of the key concepts of emergency care. Emergency Nursing at a Glance uses the unique and highly visual at a Glance format to convey vital information quickly and efficiently, ensuring that nursing students have access to all the important topics they need for an emergency care placement. This highly visual, easy-to-read guide is the ideal companion for anyone entering fields involving urgent or unscheduled care. •Includes all aspects of emergency care, including trauma, minor injury, triage processes, patient assessment, common emergency presentations, as well as legal, ethical and professional issues. •Covers care of adults, children, and those with learning disabilities and mental health conditions •Presented in the bestselling at a Glance format, with superb illustrations and a concise approach Emergency Nursing at a Glance is an invaluable resource for nursing students, newly qualified nurses and other healthcare professionals working in emergency departments, urgent care centres, minor injury units and walk-in centres.

Multiple Choice Questions in Primary Health Care Sep 08 2020 This edition incorporates changes between 1987 and 1995 in the science and practice of medicine, as well as the administrative developments in the British NHS. Management MCQs have been deleted, new questions added in their place, and all previous questions checked against new methods and advances.

Intensive Care Medicine MCQs Apr 27 2022 Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with first-hand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their

knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This book will complement the existing international best-selling title "Multiple Choice Questions in Intensive Care Medicine" (9781903378 649), also written by Dr Steve Benington.

MCQS in Critical Care Medicine _____ Oct 02 2022 This is the first comprehensive book published from India which is based on MCQs, primarily for doctors appearing for competitive exams in critical care medicine. It is also a must have for every doctor and nurse working in the ICU, as the case scenarios and latest recommendations will help them to have a better approach towards complex situations and provide better care to the patients.

MCQs in Intensive Care Medicine _____ Mar 27 2022 This book provides 300 practice MCQs divided into three practice papers. Correct answers follow, accompanied by short referenced notes drawing from recent important journal articles, major critical care textbooks and selected internet resources. Since there is no other dedicated intensive care MCQ book on the market, this book is relevant to the following groups: junior intensive care trainees, senior intensive care nursing staff wishing to enhance their medical knowledge, intensive care consultants as a teaching aid and trainees preparing for professional examinations. This MCQ book will also be ideal in preparation for the European Diploma in Intensive Care Medicine (EDIC) Part 1 examination, as the questions are matched as closely as possible in style and difficulty to those in the EDIC Part 1. The EDIC is an internationally recognised qualification for medical trainees in intensive care, set by the European Society for Intensive Care Medicine (ESICM). It is a two-part examination consisting of a 100-question multiple choice paper (Part 1) and a clinical and viva voce examination (Part 2). To ensure relevance, the questions are designed with reference to the training syllabus provided by the ESICM.

Children and Young People's Nursing at a Glance _____ Jul 27 2019 Children and Young People's Nursing at a Glance, is the perfect companion for study and revision for pre-registration children's nursing students from the publishers of the market-leading at a Glance series. Divided into seven sections it explores assessment and screening, working with families, the newborn infant, the developing child, child health policy, nursing the sick child and young person and chronic and life-limiting conditions. This comprehensive book is an invaluable resource for pre-registration nursing students as well as newly qualified nurses wanting to consolidate and expand their knowledge of children and young people's nursing. Breaks down complex aspects of child health care in an accessible and un-intimidating way The perfect revision and consolidation textbook Linked closely with the NMC

standards for pre-registration nursing education, and the essential skills clusters framework Highly visual colour presentation, with approximately 130 illustrations Includes boxes, summary boxes, key points and recommendations for practice to improve the learning experience Supported by a companion website featuring over 500 interactive multiple choice questions

(www.ataglanceseries.com/nursing/children) Available in a range of digital formats - perfect for 'on the go' study and revision

Review of Cardiac Anesthesia & Cardiac Critical Care Nov 10 2020 This new edition has been fully revised to provide trainees with the latest advances and technologies in cardiac anaesthesia and cardiac critical care. Divided into three sections, the book begins with discussion on cardiovascular anaesthesia, covering preoperative assessment and management, antiarrhythmic drugs, anaesthesia for surgery, paediatric cardiology, and more. The second section describes the use of echocardiography for numerous cardiac disorders, enhanced by formulas, schematic diagrams, and videos. The final chapter in this section features MCQs based on videos from the accompanying DVD ROM. Section three covers extracorporeal membrane oxygenation and critical care, and includes Michigan-based Extracorporeal Life Support Organisation (ELSO) guidelines. Key points Fully revised, second edition providing trainees with latest advances in cardiac anaesthesia and cardiac critical care Includes MCQs based on accompanying DVD ROM videos Covers ELSO guidelines Previous edition (9789350906590) published in 2013

Multiple Choice Questions in Intensive Care Medicine May 29 2022 This book contains 300 true/false and single best answer questions covering all aspects of intensive care medicine. Questions are based on the internationally recognised Competency-Based Training in Intensive Care Medicine in Europe (CoBaTrICE) syllabus. Topics include resuscitation, diagnosis, disease management, peri-operative care, organ support, applied basic science and ethical issues. Each answer is accompanied by fully referenced short notes drawn from recent review articles, landmark papers and major critical care textbooks. This book is an ideal companion for candidates approaching multiple choice examinations in intensive care medicine, including the European Diploma in Intensive Care (EDIC). It will also be a valuable teaching and learning aid for doctors preparing for oral examinations in the specialty, candidates sitting professional examinations in related specialties, and anyone involved in the care of critically ill patients.

Oxford Desk Reference: Critical Care Jan 13 2021 Critical care medicine is an evolving speciality in which the amount of available information is growing daily and spread across a myriad of books, journals and websites. This essential guide brings together this information in an easy-to-use format. Up-to-date, relevant, and

evidence-based information on the management of the critically ill is combined in one resource, ideal for the use of Intensive Care Units, High Dependency Units, acute medical or surgical wards, Accident and Emergency departments and operating theatres. The book is designed such that each subject will form a self-contained topic in its own right, laid out across two or four pages to facilitate the key aim of rapid and easy access to information. This makes the information included simple to find, read and absorb, so that the book can be consulted in the clinic or ward setting for information on the optimum management of a particular condition. With chapters written by internationally renowned critical care specialists and edited by the three of the leading figures in UK Critical Care, this book should be an essential resource for all critical care physicians.

MCQs for the Primary FRCA Mar 03 2020 Designed for candidates sitting the primary FRCA examination, this book brings together exam questions from recent years and structures them into six practice papers. The format of 90 questions per paper echoes the exam itself. Following each paper a scoring chart and detailed explanations of answers are provided. The questions cover physiology, pharmacology, physics, clinical measurement and statistics as they appear in the primary FRCA. There are questions on all recently added exam topics, and those that now carry stronger emphasis and more weight such as resuscitation, sepsis and trauma. The latest drugs, equipment, monitoring techniques and safety procedures are referenced. Trainees will find this an invaluable tool for exam preparation, whether sitting the FRCA in the UK, through the London College external examiners in many Asian and African countries, or similar exams for anaesthetists in Australasia and North America.

MCQs for ENT May 05 2020 MCQs for ENT: Specialist Revision Guide for the FRCS is a key resource for candidates preparing to sit the FRCS (ORL-HNS). It contains over 300 single best answer questions and over 70 extended matching questions to help candidates prepare for all aspects of ENT they may face in this challenging exam. Written by expert consultants who have succeeded in the exam, this resource provides comprehensive coverage of theory and practice, including new questions on challenging topics such as electroneurography and voice clinic procedures, and questions on rare topics such as oropharyngeal cancers. All answers have full explanations, providing candidates with high-quality self-assessment in order to maximize exam success. Providing a thorough assessment of the reader's ENT knowledge, this is an essential revision book for any candidate facing the FRCS ORL-HNS exam.

Best of Five MCQs for the Geriatric Medicine SCE Dec 12 2020 Candidates can prepare with confidence for the Geriatric Medicine Specialty Certificate Examination with this revision guide designed specifically for the exam. Containing 300 Best of Five questions, the

content is carefully mapped to the curriculum ensuring comprehensive preparation. The questions mirror the format of those candidates can expect to find in the exam, and cover all of the key topics, including dementia and delirium, palliative care, nutrition, and stroke.

Explanatory answers include references to guidelines and other sources to enable further reading and study. The second edition addresses the latest clinical guidelines and supporting literature, Non-vitamin K Antagonist Oral Anticoagulants (NOACs), and changes in health and social care policy. This new edition is also suitable for candidates preparing for the Diploma in Geriatric Medicine exam. Providing a thorough assessment of the reader's geriatric medicine knowledge, this is the only revision guide candidates will need to pass the Geriatric Medicine Specialty Certificate Examination first time.

Single Best Answer MCQs in Anaesthesia Oct 22 2021 The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

Intensive Care Medicine MCQs Jul 31 2022 Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising

intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

Basic Sciences for Core Medical Training and the MRCP

Jul 07 2020

Providing a clear explanation of the relevant medical science behind the individual medical specialties, Basic Science for Core Medical Training and the MRCP, is an indispensable part of a candidate's MRCP preparation. Directly linked to the Royal College exam, the book follows the same systems-based approach as the syllabus for accurate and effective revision. With full coverage of basic science for the medical specialities, the book features material on genetics, cellular, molecular and membrane biology, and biochemistry. Content is presented in an illustrated and easy-to-read format, ensuring that the basic science for each medical specialty is more approachable and accessible. A focus on how the basic sciences aid understanding of clinical practice is reinforced through key tables of differential diagnoses and pharmacology. Ten multiple choice questions at the end of each chapter consolidate learning and enable candidates to test their knowledge. The book also covers common examination errors and areas of misunderstanding to aid learning and help candidates avoid common pitfalls.
