*Murder on the Yellow Brick Road* May 05 2020 Toby Peters investigates threats to Judy Garland and a body on the MGM lot A year after The Wizard of Oz's smash success, the yellow brick road is crumbling. The famous sets are stashed on a soundstage in the depths of the MGM back lot while the studio plans a sequel, and a strange addition has just been made to the scene: a munchkin in full costume lying facedown with a knife buried in his back. The studio boss calls Toby Peters, a Hollywood detective with a reputation for discretion, and asks for help keeping the murder quiet. MGM is a family company, and Judy Garland, who found the body, is a wholesome actress whose rising star cannot risk a whiff of scandal. But as Peters quickly learns, the threat to Miss Garland isn't the tabloids: It's the psychopathic killer whose turf is the back lot, and whose crime of choice is the murder of the silver screen's finest.

**Yellow Woman** Dec 24 2021 In the past twenty-five years many Native American writers have retold the traditional stories of powerful mythological women: Corn Woman, Changing Woman, Serpent Woman, and Thought Woman, who with her sisters created all life by thinking it into being. Within and in response to these evolving traditions, Leslie Marmon Silko takes from her own tradition, the Keres of Laguna, the Yellow Woman. Yellow Woman stories, always female-centered and always from the Yellow Woman's point of view, portray a figure who is adventurous, strong, and often alienated from her own people. She is the spirit of woman. Ambiguous and unsettling, Silko's "Yellow Woman" explores one woman's desires and changes—her need to open herself to a richer sensuality. Walking away from her everyday identity as daughter, wife and mother, she takes possession of transgressive feelings and desires by recognizing them in the stories she has heard, by blurring the boundaries between herself and the Yellow Woman of myth. Silko's decision to tell the story from the narrator's point of view is traditional, but her use of first person narration and the story's much raised ambiguity brilliantly reinforce her themes. Like traditional yellow women, the narrator is unnamed. By choosing not to reveal her name, she claims the role of Yellow Woman, and Yellow Woman's story is the one Silko clearly claims as her own. The essays in this collection compare Silko's many retellings of Yellow Woman stories from a variety of angles, looking at crucial themes like storytelling, cultural inheritances, memory, continuity, identity, interconnectedness, ritual, and tradition. This casebook includes an introduction by the editor, a chronology, an authoritative text of the story itself, critical essays, and a bibliography for further reading in both primary and secondary sources. Contributors include Kim Barnes, A. LaVonne Ruoff, Paula Gunn Allen, Patricia Clark Smith, Bernard A. Hirsch, Arnold Krupat, Linda Danielson, and Patricia Jones.

**Information and consumer willingness to pay for biofortified yellow cassava** Jan 13 2021 In this paper we use the Becker-deGroot-Marschak auction mechanism to estimate consumer demand for biofortified yellow cassava varieties in two states of Nigeria: Imo in the southeast and Oyo in the southwest. These two states exhibit distinct habitual product color preferences for staple food made with cassava. We estimate the effect of nutrition information campaigns and nature of planting material delivery institutions on consumer demand. Willingness to pay estimation accounted for the effect of product endowment censoring in bids and payment. Without a nutrition information campaign, biofortified varieties are unlikely to be accepted in the southeast as they are associated with substantial discounts. In the southwest, consumers are willing to pay a premium for light yellow biofortified cassava varieties even in the absence of nutrition information. The paper finds that nutrition information results in a large and significant price premium for biofortified yellow cassava in both states, but the nature of delivery institution has a small effect in the southwest only.

???? "*Huang Di Nei Jing*"; *The Yellow Emperor's Internal Canon* Nov 30 2019 The Yellow Emperor's Internal Canon is the earliest extant TCM (Traditional Chinese Medicine) theory book, which has far-reaching influence on the establishment of the later Chinese medical theory. **Dreaming in Yellow: The Story of the DIY Sound System** Mar 27 2022 Emerging from Nottingham in the summer of 1989, the DiY Collective were one of the first house sound systems in the UK. Merging the anarchic lineage of the free festival scene, the cultural and political anger of bands like Crass with the new, irresistible electronic pulse of acid house, they bridged the idealistic void left by the moral implosion of the commercial rave scene. From Castlemorton to the Café del Mar, the DiY sound and DJs became internationally renowned and beneath their banners of liberty, collectivism and untrammelled hedonism achieved an underground cult status that endures to this day. Having celebrated their thirtieth anniversary in 2109, DiY continue to challenge the idea that dance music is apolitical and to celebrate the ideology of liberation through fun. Written by Harry Harrison, one of DiY's founding members, this book traces their origins back to early formative experiences, describing in detail the seminal clubs, parties, festivals and records that forged the collective. *Dreaming in Yellow* is an attempt to distil the story of DiY's tumultuous existence and the remarkably eclectic, outrageous and occasionally deranged story of them doing it themselves.

The King in Yellow Jul 31 2022 Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

When Iris charms a famous publisher into offering her a lucrative deal for a twelfth-century romance, she offers her sister a deal of her own: Joséphine will write the novel and pocket all the proceeds, but the book will be published under Iris's name. *Yellow Journalism* Jul 19 2021 This offers a detailed and long-awaited reassessment of one of the most maligned periods in American journalism-the era of the yellow press. The study challenges and dismantles several prominent myths about the genre, finding that the yellow press did not foment-could not have fomented-the Spanish-American War in 1898, contrary to the arguments of many media historians. The study presents extensive evidence showing that the famous exchange of telegrams between the artist Frederic Remington and newspaper publisher William Randolph Hearst-in which Hearst is said to have vowed to "furnish the war" with Spain-almost certainly never took place. The study also presents the results of a systematic content analysis of seven leading U. S. newspapers at 10 year intervals throughout the 20th century and finds that some distinguishing features of the yellow press live on in American journalism.
