Life in Public Schools (RLE Edu L) Jul 11 2021 Britain's public (that is, its major independent) schools have a conspicuous role in the country's social system, and as a result are the subject of a long-standing political debate. The discussion is generally founded on a stereotyped image of what these schools may have been like in the 1950s -- this book shows how they were in the late 1980s. It is based on fieldwork in two major public boarding schools which the author conducted over an extended period, and draws on interviews, observation and documentary sources to establish a picture of what public school life is actually like for pupils and staff. Since the schools were predominantly male preserves, the major part of the book describes the social world and experiences of boys and schoolmasters. An important section of the book, however, discusses the introduction of girl pupils, the experiences of female teachers and the way schoolmasters' wives tend to be drawn into their husbands' work. Geoffrey Walford's conclusions about life in public schools differ considerably from traditional expectations. At the same time he asks whether there really has been a 'public school revolution'. His book makes an important contribution to our knowledge of public schools, to debates in the sociology of education and to the issues of abolishing or extending the independent sector.

The Sun: A Laboratory for Astrophysics Sep 13 2021 As in the days following Skylab, solar physics came to the end of an era when the Solar Maximum Mission re-entered the earth's atmosphere in December 1989. The 1980s had been a pioneering decade not only in space- and ground-based studies of the solar atmosphere (Solar Maximum Mission, Hinotori, VLA, Big Bear, Nancy, etc.) but also in solar-terrestrial relations (ISEE, AMPTE), and solar interior neutrino and helioseismology studies. The pace of development in related areas of theory (nuclear, atomic, MHD, beam-plasma) has been equally impressive. All of these raised tantalizing further questions about the structure and dynamics of the Sun as the prototypical and best observed star. This Advanced Study Institute was timed at a pivotal point between that decade and the realisation of Yohkoh, Ulysses, SOHO, GRANAT, Coronas, and new ground-based optical facilities such as LEST and GONG, so as to teach and inspire the up and coming young solar researchers of the 1990s. The topics, lecturers, and students were all chosen with this goal in mind, and the result seems to have been highly successful by all reports.

House of Kwa Aug 12 2021 Wild Swans meets Educated in this riveting true story spanning four generations 'Revelatory and remarkable' - TRENT DALTON 'Memorable and vivid' - RICHARD GLOVER 'Lands with a thump in your heart' - LISA MILLAR 'Heartbreaking and uplifting' - MEAGHAN WILSON ANASTASIOS 'An heroic saga' - MIKE MUNRO The dragon circles and swoops ... a tiger running alone in the night ... Mimi Kwa ignored the letter for days. When she finally opened it, the news was so shocking her hair turned grey. Why would a father sue his own daughter? The collision was over the estate of Mimi's beloved Aunt Theresa, but its seed had been sown long ago. In an attempt to understand how it had come to this, Mimi unspools her rich family history in House of Kwa. One of a wealthy silk merchant's 32 children, Mimi's father, Francis, was just a little boy when the Kwa family became caught up in the brutal and devastating Japanese occupation of Hong Kong during World War II. Years later, he was sent to study in Australia by his now independent and successful older sister Theresa. There he met and married Mimi's mother, a nineteen-year-old with an undiagnosed, chronic mental illness. Soon after, 'tiger' Mimi arrived, and her struggle with the past - and the dragon - began ... Riveting, colourful and often darkly humorous, House of Kwa is an epic family drama spanning four generations, and an unforgettable story about how one woman finds the courage to stand up for her freedom and independence, squaring off against the ghosts of the past and finally putting them to rest. Throughout, her inspiration is Francis's late older sister, the jet-setting, free-spirited Aunt Theresa, whose extraordinary life is a beacon of hope in the darkness. PRAISE FOR HOUSE OF KWA 'House of Kwa enchants and enthralls like the best kind of sweeping, dynastic fiction, but it rattles the bones and breaks the heart with the pure facts of Mimi Kwa's extraordinary story. Revelatory and remarkable storytelling.' Trent Dalton 'An astonishing true tale that leaps across centuries and cultures to land with a thump in your heart.' Lisa Millar 'A startling tale of the past, its terrible grip on the present, and the battle to set yourself free. Full of scenes that hover between tragedy and farce, House of Kwa is one of the most compelling stories you'll read this year. Memorable and vividly told, this is a book for anybody forced to survive their own parents.' Richard Glover 'From the back streets of China to war-torn Hong Kong to suburban Australia, this is an heroic saga that reveals just some of the stories behind the multi-cultural nation we are today.' Mike Munro AO 'This is a charming and compelling story, an insight into a deeply traditional Chinese family in times when China was undergoing internally and externally induced upheaval.' South China Morning Post 'A rich and riveting read which heralds a new chapter in Kwa's life as a writer. The spirited tiger, full of life and driven to achieve, has many stories to tell yet.' The Weekend Australian 'House of Kwa answers the question of how one should write about one's family with generosity and love - to read it is to experience Kwa's wonder at the strength and resilience of her family, as well as the intimacy of her relationships with them. Traversing the boundaries of a traditional memoir, House of Kwa is the biography of a family that explores the way our lives are shaped by the past we can and cannot remember. Kill Your Darlings 'A rare work of non-fiction which balances page turning prose with lyrical depth. Do yourself and everyone you know a favour and dive in!' Megan Rogers An utterly captivating, gripping and inspirational tale of one woman's triumph over adversity. In this extraordinary multi-generational memoir, Kwa fearlessly grapples with questions of love, loyalty, and the power of the human spirit. Intimate and revelatory, House of Kwa is the most heart-breaking and uplifting book I have read in years and announces the arrival of an exciting writer. Meaghan Wilson Anastasios 'If you're a fan of the book Educated by Tara Westover, as I am, and most readers I know are, then you have to read this.' Joan McKenzie, Joan's Picks, Whitcoulls 'Mimi's narrative about their family life is heart-breaking, hilarious, and often unbelievable.' Magic talk FM 'An exotic journey that takes readers through the contributions Chinese immigrants have made to multicultural Australia.' ABC Nightlife 'Kwa is an engaging storyteller.' Asian Review of Books 'Extraordinary - I couldn't put it down. Wonderfully written, this intriguing family story reads like a page-turning novel. The journey of the Kwa dynasty and its legacy is told in such rich, colourful detail, you feel like you are there. I loved it. Sue Smethurst 'I laughed, I grieved, I was intrigued. It took enormous strength to write this story of trauma, abuse, mental health, dislocation, racism and reinvention. Above all it is a story of love and kindness. It will resonate with so many people.' Kirsty Manning

Mediating Ideology in Text and Image Dec 04 2020 While ideology has been treated widely in CDA-literature, the role played by the interaction of text and image in multiplying meaning and furthering ideological stances has not so far received a lot of attention.

Mediating Ideology in Text and Image offers a number of approaches to such analysis, offering students and academics valuable tools for identifying possible discrepancies between the world and the way it is represented through various mediational means. The authors' common aim is one of assisting the audience in reading between the lines, thus offering a variety of approaches that may contribute to a better understanding of how ideologies possibly work and how they may be denaturalised from text and image. The articles in part I look at rhetorical strategies used in meaning construction processes unfolding in various kinds of mass media. Part II focuses on the re-semiotization of meaning and looks at how analysing the combination of text and image may contribute to a better understanding of ideological processes brought about by multimodal resources. Foreword by Ruth Wodak.

Law, Rights and Ideology in Russia Oct 14 2021 Law, Rights and Ideology in Russia: Landmarks in the destiny of a great power brings into sharp focus several key episodes in Russia's vividly ideological engagement with law and rights. Drawing on 30 years of experience of consultancy and teaching in many regions of Russia and on library research in Russian-language texts, Bill Bowring provides unique insights into people, events and ideas. The book starts with the surprising role of the Scottish Enlightenment in the origins of law as an academic discipline in Russia in the eighteenth century. The Great Reforms of Tsar Aleksandr II, abolishing serfdom in 1861 and introducing jury trial in 1864, are then examined and debated as genuine reforms or the response to a revolutionary situation. A new interpretation of the life and work of the Soviet legal theorist Yevgeniy Pashukanis leads to an analysis of the conflicted attitude of the USSR to international law and human rights, especially the right of peoples to self-determination. The complex history of autonomy in Tsarist and Soviet Russia is considered, alongside the collapse of the USSR in 1991. An examination of Russia's plunge into the European human rights system under Yeltsin is followed by the history of the death penalty in Russia. Finally, the secrets of the ideology of 'sovereignty' in the Putin era and their impact on law and rights are revealed. Throughout, the constant theme is the centuries long hegemonic struggle between Westernisers and Slavophiles, against the backdrop of the Messianism that proclaimed Russia to be the Third Rome, was revived in the mission of Soviet Russia to change the world and which has echoes in contemporary Eurasianism and the ideology of sovereignty.

Library Technology and User Services Nov 15 2021 Written as a technology guide for students, practitioners, and administrators, the focus of this book is on introducing current and future trends in library technology and automation within the larger context of strategic and systems planning, implementation, and continuous improvement. Technology is an essential resource for attaining both organizational and patron goals, and planning needs to emphasize the alignment between the clearly defined goals of each. For this alignment to occur on a consistent basis goals must be designed, or engineered, in a systematic fashion where technology fulfils the need to deliver the desired outcomes in an efficient, cost-effective manner. The concept of usability engineering is also examined, where the technology is planned, designed, and implemented in such a way as to maximize utility and ease-of-use for users and employees. Readers of this book will understand both the why and the how of library technology, planning, and implementation articulated in a simple, easy-to-understand fashion. Delivered from academic, public, and school library media perspectives Current and emerging technologies are discussed along with their current and future application in the field of library and information science Technology planning and integration is explained using a systems design process with scenarios and case studies that are articulated in a step-wise, holistic fashion
