Cultural Insurrection Mar 27 2022 From the director of Mondovino, a lively discussion of the expanding world of natural wine that considers the movement as a potential remedy for our current cultural crisis. What if, ten years from now, an artist--a filmmaker, for example--will have become as marginal and anachronistic as a blacksmith? What if the actors in the cultural world are on the brink of extinction, not about to disappear like prehistoric animals, but worse--submitting to the status quo? Absorbed by a marketplace that increasingly devalues true artistic work? In Cultural Insurrection, award-winning filmmaker and sommelier Jonathan Nossiter considers these questions and offers a solution inspired by the rebellious, innovative figures transforming the way we produce and consume wine. This new generation of artisans, working closely with the earth to create exceptional natural wines, has assumed the role of dissenters that artists have abandoned, and we should look to them in order to revitalize contemporary art.

[The New Wines of Mount Etna: An Insider's Guide to the History and Rebirth of a Wine Region](#) Jan 01 2020 Making wine on Europe's largest active volcano doesn't come easy. Frequent changes in topography, elevation, and weather influence each vintage and every winemaker has an interpretation of the evolving volcanic landscape. This is part of what makes Etna so exciting. The wines are as inviting as the terrain. For millennia the mountain served as a backdrop in the development of Europe. Today, the UNESCO Heritage Site is a destination for the world. American wine expert Benjamin Spencer goes beyond the vines to explore the history and rebirth of the region that has everyone talking about Sicily.

Paroxysm Jan 31 2020 Jean Baudrillard is one of the most controversial and stimulating figures in contemporary philosophy and cultural criticism. Whether embraced or reviled for his reflections on 'hyperreality', he never fails to evoke strong reactions. Yet, all too often, discussion of Baudrillard's ideas takes place at one remove, with much imputed to him. It is sometimes claimed that his writing is too abstract or obscure to analyse rigorously. The Indifferent Paroxyst offers the reader a new way to approach Baudrillard's ideas through the use of the interview format. Closely questioned by French journalist Philippe Petit, Baudrillard covers a vast range of topics, including Fukuyama; 1989 and the collapse of Communism; Bosnia, the Gulf War, Rwanda and the New World Order; globalisation and universalisation; the return of ethnic nationalisms; the nature of war; revisionism and Holocaust denial; Deleuze, Foucault, Bataille and Virilio; nihilism and the apocalyptic; the practice of writing; virtual reality; the West and the East; the culture of victimhood and repentance; human rights and citizenship; French intellectuals and engagement; the nature of capitalism today; consumer society and social exclusion; liberation; death, violence and necrophilia; reality, illusion and the media; and destabilisation of all aspects of life, including sexuality. Baudrillard's answers--which span politics, philosophy and culture--are concise, witty and trenchant, and they serve both as an accessible introduction to his ideas for the newcomer and as a fascinating clarification of recent positions for the connoisseur.

The Emperor of Wine Oct 29 2019 The first book to chronicle the rise of Robert M. Parker, Jr., the world's most influential and controversial wine critic, who, over the last twenty-five years, has dominated the international wine world and embodied the triumph of American taste. This is the story of how an American lawyer raised on Coca-Cola caused a revolution in the way wines around the globe are made, sold, and talked about. To his legions of fans, Parker is a cross between Julia Child and Ralph Nader -- part enthusiastic sensualist and part consumer crusader. To his many enemies, he is a self-appointed wine judge bent on reducing the meaning of wine to a two-digit number. The man who now rules the world of wine has been the focus of both adulation and death threats. He rose to his pinnacle of power by means of the traditional American virtues of hard work, determination, and integrity -- coupled with an unshakeable ego and a maniacal obsession with a beverage that aspires to a seductive art form: fine wine. Parker's influential bimonthly newsletter, The Wine Advocate, with more than 45,000 subscribers across the United States and in more than thirty-seven countries, exerts the single most significant influence on consumers' wine-buying habits and trends in America, Europe, and the Far East, and impacts the way wine is being made in every wine-producing country in the world, from France to Australia. Parker has been profiled in countless magazines and newspapers around the world and most of his dozen books have been best sellers in the United States and abroad. Yet, despite the world's attention and unending acclaim, Robert Parker stands at the center of a heated controversy. Is he a passionate lover of wine who, more than anyone else, is responsible for its vastly improved quality, or is he, as others claim, waging a war against centuries of tradition and in the process killing the soul of wine? The Emperor of Wine tackles the myriad questions that swirl about Parker and reveals how he became both worshipped and despised, revered as an infallible palate by some and blamed by others for remaking the world's wine industry into a single global

market, causing prices to skyrocket, and single-handedly reshaping the taste of wine to his own preference. Elin McCoy met Robert Parker in 1981 when she was his first magazine editor, and she has followed his extraordinary rise ever since. In telling Parker's story, McCoy gives readers an unmatched, authoritative insider's view of the eccentric personalities, bitter feuds, controversies, passions, payoffs, and secrets of the wine world, explaining how wine reputations are made, how and why wine critics agree and disagree, and tracking the startling ways wines are judged, promoted, made, and sold today. This fascinating portrait of a modern-day cultural colossus shows how a world that once was the province of gentlemen's clubs and the pastime of stuffed shirts turned into a sensual hobby for the middle class, creating a luxury industry bent on making money on a worldwide scale -- and how one man has revolutionized the way the world thinks about wine.

Garibaldi Jun 25 2019 What adventure novelist could have invented the life of Giuseppe Garibaldi? The revolutionary, soldier, politician, and greatest figure in the fight for Italian unification, Garibaldi (1807-1882) brought off almost as many dramatic exploits in the Americas as he did in Europe, becoming an international freedom fighter, earning the title of the "hero of two worlds," and making himself perhaps the most famous and beloved man of his century. Alfonso Scirocco's Garibaldi is the most up-to-date, authoritative, comprehensive, and convincing biography of Garibaldi yet written. In vivid narrative style and unprecedented detail, and drawing on many new sources that shed fresh light on important events, Scirocco tells the full story of Garibaldi's fascinating public and private life, separating its myth-like reality from the outright myths that have surrounded Garibaldi since his own day. Scirocco tells how Garibaldi devoted his energies to the liberation of Italians and other oppressed peoples. Sentenced to death for his role in an abortive Genoese insurrection in 1834, Garibaldi fled to South America, where he joined two successive fights for independence--Rio Grande do Sul's against Brazil and Uruguay's against Argentina. He returned to Italy in 1848 to again fight for Italian independence, leading seven more campaigns, including the spectacular capture of Sicily. During the American Civil War, Abraham Lincoln even offered to make him a general in the Union army. Presenting Garibaldi as a complex and even contradictory figure, Scirocco shows us the pacifist who spent much of his life fighting; the nationalist who advocated European unification; the republican who served a king; and the man who, although compared by contemporaries to Aeneas and Odysseus, refused honors and wealth and spent his last years as a farmer.

Liquid Memory Jun 17 2021 Jonathan Nossiter had his first taste of wine at the age of three in Paris, from his father's finger. For him, wine is 'memory in its most liquid and dynamic form,' as essential an expression of culture as film, books or painting. From the wine shops and three-star restaurants of Paris to the biodynamic vineyards of Burgundy, from the hipster bistros of New York to film locations in Rio de Janeiro and Athens, Liquid Memory investigates the infinite mysteries of terroir, the historical sense of place that makes wine a living, expression of cultural identity that can stretch back centuries. It is also a joyful master class in locating the soul of a wine, and in learning to trust your own palate and desires.

Ordine e disordini in Gioacchino da Fiore Jan 25 2022 Per Gioacchino da Fiore (†1202) il problema dell'ordo e della sua intelligibilità costituisce un tema centrale e quasi ossessivo. Lo ritroviamo nella sua opera in molte declinazioni: nel suo metodo di interpretazione delle Scritture secondo la «concordia» fra Antico e Nuovo Testamento; nei suoi diagrammi; nell'organizzazione concreta o ideale delle forme di vita religiosa da lui immaginate; nelle sue osservazioni sul suo tempo e i suoi conflitti, ritenuti segni della prossima fine dei tempi. I contributi raccolti nel volume esplorano questi diversi aspetti, ponendo una particolare attenzione al contesto: il tema dell'ordo percorre tutto il XII secolo; attraverso il punto di vista di Gioacchino - a tratti sconcertante, ma ben radicato nella cultura di quegli anni - possiamo comprendere meglio il suo tempo.

The Moving Text Sep 08 2020 For the discourse of localization, translation is often "just a language problem". For translation theorists, localization introduces fancy words but nothing essentially new. Both views are probably right, but only to an extent. This book sets up a dialogue across those differences. Is there anything that translation theory can gain from localization? Can localization theory learn anything from the history and complexity of translation? To address those questions, both terms are placed within a more general frame, that of text transfer. Texts are distributed in time and space; localization and translation respond differently to those movements; their relative virtues are thus brought out on common ground. Anthony Pym here reviews not only key problems in translation theory, but also critical concepts such as cultural resistance, variable transaction costs, segmentation of the labour market, and the dehumanization of technical discourse. The book closes with a plea for the humanizing virtues of translation, over and above the efficiencies of localization.

Il naso intelligente Jun 29 2022 Siamo i soli animali capaci di comporre gli odori per creare un profumo, di apprezzarne le qualità estetiche e di descrivere a parole gli aromi di un vino o di una pietanza. Eppure, distratti da una mentalità visivo-acustica, abbiamo relegato l'olfatto tra i sensi 'minori'. Rosalia Cavalieri svela come e quanto gli odori influenzino i nostri comportamenti e come, per noi umani, l'atto dell'annusare implichi un vero e proprio processo di conoscenza.

[A Natural History of Wine](#) Sep 28 2019 A captivating survey of the science of wine and winemaking for anyone who has ever wondered about the magic of the fermented grape An excellent bottle of wine can be the spark that inspires a brainstorming session. Such was the case for Ian Tattersall and Rob DeSalle, scientists who frequently collaborate on book and museum exhibition projects. When the conversation turned to wine one evening, it almost inevitably led the two--one a palaeoanthropologist, the other a molecular biologist--to begin exploring the many intersections between science and wine. This book presents their fascinating, freewheeling answers to the question "What can science tell us about wine?" And vice versa. Conversational and accessible to everyone, this colorfully illustrated book embraces almost every imaginable area of the sciences, from microbiology and ecology (for an understanding of what creates this complex beverage) to physiology and neurobiology (for insight into the effects of wine on the mind and body). The authors draw on physics, chemistry, biochemistry, evolution, and climatology, and they expand the discussion to include insights from anthropology, primatology, entomology, Neolithic archaeology, and even classical history. The resulting volume is indispensable for anyone who wishes to appreciate wine to its fullest.

Teaching and Digital Technologies Jul 27 2019 Teaching and Digital Technologies: Big Issues and Critical Questions helps both pre-service and in-service teachers to critically question and evaluate the reasons for using digital technology in the classroom. The text directly engages with policy, the Australian Curriculum, pedagogy, learning and wider issues of equity, access, generational stereotypes and professional learning. The contributors to the book are notable figures from across a broad range of Australian universities, giving the text a unique relevance to Australian education while retaining its universal appeal. Teaching and Digital Technologies is an essential contemporary resource for early childhood, primary and secondary pre-service and in-service teachers in both local and international education environments.
