[Problems and Solutions in Mathematics](#) Feb 11 2021 This book contains a selection of more than 500 mathematical problems and their solutions from the PhD qualifying examination papers of more than ten famous American universities. The mathematical problems cover six aspects of graduate school mathematics: Algebra, Topology, Differential Geometry, Real Analysis, Complex Analysis and Partial Differential Equations. While the depth of knowledge involved is not beyond the contents of the textbooks for graduate students, discovering the solution of the problems requires a deep understanding of the mathematical principles plus skilled techniques. For students, this book is a valuable complement to textbooks. Whereas for lecturers teaching graduate school mathematics, it is a helpful reference.

[American English Primary Colors 4 Teacher's Book](#) Mar 03 2020

American English Primary Colors is a new 4-level course for young learners. It is packed with fun activities which ensure that children use English in a purposeful way. Right from the start, they are fully involved in thinking for themselves, doing things for themselves and making things themselves, all of which is underpinned by a strong structural syllabus. The Student's Books have engaging stories, puzzles, games, songs and chants, and craft activities. The course includes Activity Books, Teacher's Books, Class Audio CDs, Songs/Songs and Stories CDs, and Vocabulary Cards. The course encourages children to think about the world around them and, at the higher levels, to make connections with other areas of the curriculum. This approach makes language learning meaningful and memorable.

[Tools for Strengths-Based Assessment and Evaluation](#) Jan 13 2021

Catherine Simmons, PhD, LCSW ì Drs. Simmons and Lehmann have given all of us in the helping professions ó practitioners and researchers alike ó a comprehensive resource for finding and selecting psychometrically sound, practical, strengths-based measures that we can use not only to ñ look at the results í but to do so in a way that we ñ measure others by their strengths. í We look forward to seeing this invaluable resource Ó on every social workerís desk in the coming years. í -John G. Orme, PhD, MSW Professor, University of Tennessee -Terri Combs-Orme, PhD The Urban Child Institute Endowed Professor Traditionally, assessment and evaluation have focused on the negative aspects or deficits of a clientís presentation. Yet strengths, health, and those things that are going

right in a person's life are key protective factors in the prevention and treatment of many mental health problems. Thus, measuring strengths is an important component of a balanced assessment and evaluation process. This is the first compendium of more than 150 valid and reliable strengths-based assessment tools that clinicians, researchers, educators, and program evaluators can use to assess a wide array of positive attributes, including well-being, mindfulness, optimism, resilience, humor, aspirations, values, sources of support, emotional intelligence, and much more. These tools provide a clear picture of an individual's strengths while being easy to complete, score, and interpret. The scales and instruments included are consistently formatted, organized according to construct measures, and include tools for working with adults, couples, families, children, and special populations. They represent a wide range of theoretical approaches and were written by a diverse array of professionals, including social workers, psychologists, nurses, physicians, and sociologists. Partial List of Instruments: Assessing Emotions Scale Affective Balance Scale Flourishing Scale Five Facet Mindfulness Questionnaire Positive States of Mind Scale Measure of Expectations for Partner Multidimensional Sense of Humor Scale Parenting Sense of Competence Scale Personal Well-being Index Proactive Coping Inventory Psychological Empowerment Scale Stress-Related Growth Scale Social Well-being Scales Wellness Beliefs Scale *College Algebra* Nov 30 2019 Cynthia Young's *College Algebra, Fourth Edition* will allow students to take the guesswork out of studying by providing them with a clear roadmap: what to do, how to do it and whether they did it right, while seamlessly integrating to Young's learning content. *College Algebra, Fourth Edition* is written in a clear, single voice that speaks to students and mirrors how instructors communicate in lecture. Young's hallmark pedagogy enables students to become independent, successful learners. Varied exercise types and modeling projects keep the learning fresh and motivating. This text continues Young's tradition of fostering a love for succeeding in mathematics.

*Stress, Health and Well-Being: Thriving in the 21st Century* Oct 29 2019 Author Rick Harrington, licensed psychologist and professor, presents a thorough investigation of the mind-body connection as it relates to managing stress in this first edition of *Stress, Health, & Well-Being: Thriving in the 21st Century*. With an empirically grounded approach, the text integrates classical study of stress and health with findings from the burgeoning field of positive psychology. The result is a balanced coverage of the current scientific understanding of stress, enriched by research data analysis and practical applications for productive management of this pervasive force in our modern lives.
