*Analysis of Senior Management Teams that Have Demonstrated a Proclivity for Growth* Feb 09 2021 This book is a PhD thesis that is highly relevant to anyone involved in management. It identifies and analyses in depth the key constructs of leadership, teamwork and enterprise that are vital for a successful 'growth' business. The focus is on leadership, enterprise and the make-up of senior management teams, but the research outcomes can equally be applied to any management team environment, such as committees, working groups, panels, or administrative bodies. Critically, an unsuitable leader will almost guarantee failure, so having the ability to recognise leaders that are capable of delivering success is crucial. This book is invaluable for those people who need to understand how leadership, teamwork and enterprise interact to create dynamic and highly successful management teams.

Langacker, a founder of Cognitive Linguistics. The goal of the book is to promote two kinds of dialogue. First, dialogue between Cognitive Grammar and the particular sign-based approach to language known as the Columbia School." "The second kind of dialogue is that among several sign-based approaches themselves and also between them and two competitors: grammaticalization theory and generic functionalism. Topics range from phonology to discourse. Analytical problems are taken from a wide range of languages including English, German, Guarani, Hebrew, Hualapai, Japanese, Korean, Macedonian, Mandarin, Polish, Russian, Serbian, Spanish, Urdu, and Yaqui."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
