The American Bible-Whose America Is This? Jul 29 2019 Bestselling author Stephen Prothero addresses the question of "Whose America is this," by exploring American political discourse and the significant texts that make up the living history of the American people. American politics is broken because we have forgotten how to talk with one another. Instead of arguing on behalf of our nation, we argue on behalf of our party. *The American Bible: How Our Words Unite, Divide, and Define a Nation* acquaints us with the oft-quoted (and misquoted) speeches, songs, and sayings that animate our politics, inspire social action, and drive our debates about who is—and is not—a real American. It reconnects us with a surprising tradition of civility that manages to be both critical of Americans shortcomings and hopeful for positive change. To explore these "scriptures," is to revisit what Americans have said about liberty and equality and to revitalize our ongoing conversation about the future of the American experiment.

I Didn't Do it for You Jan 15 2021 One small East African country embodies the battered history of the continent: patronised by colonialists, riven by civil war, confused by Cold War manoeuvring, proud, colorful, with Africa's best espresso and worst rail service. Michela Wrong brilliantly reveals the contradictions and comedy, past and present, of Eritrea. Just as the beat of a butterfly's wings is said to cause hurricanes on the other side of the world, so the affairs of tiny Eritrea have reached onto the agenda of superpower strategists. The new book on Africa from the author of the classic, critically-acclaimed *In the Footsteps of Mr Kurtz*. Eritrea is a little-known country scarred by decades of conflict and occupation. It has weathered the world's longest-running guerrilla war and the dogged determination that secured victory against Ethiopia, its giant neighbour, is woven into the national psyche. Fascist Italy wanted Eritrea as the springboard for a new, racially-pure Roman empire, Britain sold off its industry for scrap, the US needed headquarters for its state-of-the-art spy station and the Soviet Union used it as a pawn in a proxy war. Michela Wrong reveals the breathtaking abuses this tiny nation has suff

Diseases of Coral Dec 02 2019 Coral disease is quickly becoming a crisis to the health and management of the world's coral reefs. There is a great interest from many in preserving coral reefs. Unfortunately, the field of epizootiology is disorganized and lacks a standard vocabulary, methods, and diagnostic techniques, and tropical marine scientists are poorly trained in wildlife pathology, veterinary medicine, and epidemiology. *Diseases of Coral* will help to rectify this situation.

[The Hardmen](#) Apr 05 2020 It's time we all stopped whining and learned a thing or two from The Toughest Cyclists Ever. Including: Stephen Roche, whose cure for exhaustion was to go up a gear and fight harder, all the way to the ambulance. Eddy Merckx, who hurt himself so badly in breaking the Hour record that, he estimated, he shortened his career by a year. Beryl Burton, who crushed her (male) rival's morale with the offer of a piece of liquorice, before speeding past to victory. Nicole Cooke and Edwig Van Hooydonck, who rejected dope and became legends. The Hardmen tells the stories - the good bits, anyway - of the 40 most heroic Cyclists ever. Their bravery, their panache and their Perfect Amount of Dumb. It reminds us that suffering on a bike liberates us from our daily lives, and that, in the words of Lance Armstrong "pain is temporary, quitting lasts forever"; proof that even assholes can be insightful.

[The Ecuador Reader](#) Sep 30 2019 Encompassing Amazonian rainforests, Andean peaks, coastal lowlands, and the Galápagos Islands, Ecuador's geography is notably diverse. So too are its history, culture, and politics, all of which are examined from many perspectives in The Ecuador Reader. Spanning the years before the arrival of the Spanish in the early 1500s to the present, this rich anthology addresses colonialism, independence, the nation's integration into the world economy, and its tumultuous twentieth century. Interspersed among forty-eight written selections are more than three dozen images. The voices and creations of Ecuadorian politicians, writers, artists, scholars, activists, and journalists fill the Reader, from José María Velasco Ibarra, the nation's ultimate populist and five-time president, to Pancho Jaime, a political satirist; from Julio Jaramillo, a popular twentieth-century singer, to anonymous indigenous women artists who produced ceramics in the 1500s; and from the poems of Afro-Ecuadorians, to the fiction of the vanguardist Pablo Palacio, to a recipe for traditional Quiteño-style shrimp. The Reader includes an interview with Nina Pacari, the first indigenous woman elected to Ecuador's national assembly, and a reflection on how to balance tourism with the protection of the Galápagos Islands' magnificent ecosystem. Complementing selections by Ecuadorians, many never published in English, are samples of some of the best writing on Ecuador by outsiders, including an account of how an indigenous group with non-Inca origins came to see themselves as definitively Incan, an exploration of the fascination with the Andes from the 1700s to the present, chronicles of the less-than-exemplary behavior of U.S. corporations in Ecuador, an examination of Ecuadorians' overseas migration, and a look at the controversy surrounding the selection of the first black Miss Ecuador.

[Blossom in Winter](#) Sep 10 2020 Immerse yourself in this utterly addictive forbidden love story that has captivated thousands of readers around the world. "We are not meant to be together. I should've known better. And yet..." Petra, a seventeen-year-old Dutch-American and the only heir of finance tycoon Roy Van Gatt, has always had her life rigorously planned and supervised by her strict father. From her internship at his hedge fund firm on Wall Street to her degree in Economics at Columbia University, Petra is all set for a bright future in finance. But everything falls apart when she develops a dangerous relationship with her father's business partner and utmost confidant, Alexander Van Dieren. A Dutch nobleman, known as an unrepentant heartbreaker, twenty-three years her senior, and who is, above all else, her beloved godfather. A twisted obsession for some, unconditional love for others, but one thing is sure: it's a relationship that might cost them everything... This book is for mature audiences. The Sisters Grimm Mar 17 2021 Fans of fractured fairy tales will be delighted to discover the fantasy, mystery, adventure, and humor in the beloved New York Times bestselling Sisters Grimm series by Michael Buckley, now with new cover art. As featured on NBC's The Today Show, the nine wildly popular books are favorites around the world. They were among the first books to bring a distinctly girl-power spin to fairy tales--a spin taken up by hit movies and shows TV such as Once Upon a Time, Grimm, and Maleficent, the bestselling book series The Land of Stories, and other. New covers will appear on book one, The Sisters Grimm: The Fairy-Tale Detectives; book two, The Sisters Grimm: The Unusual Suspects; and book three, The Sisters Grimm: The Problem Child. Books four through nine will be available in revised editions soon. ? This third book in the series takes a dark twist, as Sabrina and Daphne get closer to uncovering the truth about their parents. Coming face-to-face with their parents' kidnappers, the sisters are stunned when one of them turns out to be the world's most famous fairy-tale character (hint: she wears red) and the other an unstoppable killing-machine known as the Jabberwocky. Without the presumed-dead Mr. Canis (aka The Big Bad Wolf) fighting at their side, the girls have little hope that they'll ever be reunited with their mother and father. That is until their long-lost Uncle Jake returns home with stories of a weapon that can kill the Jabberwocky--a weapon so powerful that it had to be shattered into many pieces. Now the girls must find the pieces so the deadly weapon can be reformed. But to get the deed done they'll have to go head-to-head with the Wizard of Oz, the (not so) Little Mermaid, and even the horrible witch Baba Yaga. To complicate matters, Sabrina begins to struggle with an addiction to magic and finds herself unraveling a real-life family mystery. With an irresistible combination of adventure and imagination, the Sisters Grimm series injects classic fairy tales with modern day sensibilities and suspense, creating a fantastical combination readers of all ages will love. "Kids will love Sabrina and Daphne's adventures as much as I did." -- Sarah Michelle Gellar, star of Buffy the Vampire Slayer and I Know What You Did Last Summer "Adventure, laughs, and surprises kept me eagerly turning the pages." --R. L. Stine, author of the Goosebumps series "Why didn't I think of The Sisters Grimm? What a great concept!" --Jane Yolen, award-winning author "Terrific, head-spinning series . . . Rich in well-set-up surprises and imaginatively tweaked characters, this tongue-in-cheek frolic features both a pair of memorable young sleuths and a madcap plot with plenty of leads into future episodes." --Kirkus Reviews, starred review "Enormously entertaining, the book takes the fractured fairy-tale genre to new heights." --Time Out New York Kids "An idea that will make other children's book writers, and tons of aspiring ones, kick themselves for not thinking of it first." --The San Antonio Express-News "A page-turner that incorporates humor, tension, suspense and a wild cast of characters, readers will have trouble putting this novel down." --The Dallas Morning News "Quirky and reasonable characters, engaging writing, fresh fairy tale references, and a very real fantasy setting." --The Raleigh News and Observer, "Most Promising New Series" "The twists and turns of the plot, the clever humor, and the behind-the-scenes glimpses of Everafters we think we know, will appeal to many readers." --Kliatt, starred review

Food Spoilage Microorganisms May 31 2022 The control of microbiological spoilage requires an understanding of a number of factors including the knowledge of possible hazards, their likely occurrence in different products, their physiological properties and the availability and effectiveness of different preventative measures. Food spoilage microorganisms focuses on the control of microbial spoilage and provides an understanding necessary to do this. The first part of this essential new book looks at tools, techniques and methods for the detection and analysis of microbial food spoilage with chapters focussing on analytical methods, predictive modelling and stability and shelf life assessment. The second part tackles the management of microbial food spoilage with particular reference to some of the major food groups where the types of spoilage, the causative microorganisms and methods for control are considered by product type. The following three parts are then dedicated to yeasts, moulds and bacteria in turn, and look in more detail at the major organisms of significance for food spoilage. In each chapter the taxonomy, spoilage characteristics, growth, survival and death characteristics, methods for detection and control options are discussed. Food spoilage microorganisms takes an applied approach to the subject and is an indispensable guide both for the microbiologist and the non-specialist, particularly those whose role involves microbial quality in food processing operations. Looks at tools, techniques and methods for the detection and analysis of microbial food spoilage Discusses the management control of microbial food spoilage Looks in detail at yeasts, moulds and bacteria

A Whisper of Smoke Jun 07 2020 In 1960s Kentucky, Susanna Braden is one of four children in a dynamic Catholic family that thrives on unpredictability, where painful secrets remain unspoken, allowing sins of the past to be repeated and threatening the security and innocence of another generation. Susanna's childhood begins as one of enchantment, but always with an underlying current of instability. When a series of events lead to the development of a bitter judgment towards parents who failed to protect, either through undisclosed secrets or failure to act, Susanna draws on the support of her friends and siblings as she struggles with whether these experiences should define the person she is to become. These same experiences shape her self-esteem and feelings about love and relationships, while her friendships with Shelly, a funny, allegedly-promiscuous classmate, and Calvin, the honorable boy-next-door with whom she secretly falls in love, keep her grounded. Ultimately, Susanna must decide whether to accept her family, despite its faults, particularly when she recognizes the same failings in herself. And she must determine whether her family's good qualities, including an endearing resilience and appealing ability to rally together, even in the face of profound loss, provide the redemption they all so desperately seek. More detailed description: In 1960's Kentucky, Mama births adventures like golden eggs, but she's not exactly maternal. So, when it comes to the younger Braden children, teenage Susanna does her best to fill in where Mama leaves off - until Susanna unearths shameful secrets about Mama's past and, worse, discovers that Mama has completely failed to warn, or protect, her own children. Furious and filled with righteous indignation, Susanna's through doing Mama's work for her, and all she wants is to somehow escape the drama. Susanna finds comfort in the farm next-door and the boy who's always been her best friend. He's there for her like he always is, steady and appealingly normal and, before long, she's falling for him. For a little while, nothing seems as important as winning Calvin's love. But Calvin is involved with someone else, and when he deploys to Vietnam, it may not be Susanna's love he carries in his heart. Things look bleak, until it becomes clear that Calvin needs her friendship, if not her love, now more than ever. He's the most honorable person Susanna's ever known, and even he is being changed by his experiences. Suddenly Susanna's sense of honor, and fault, are being challenged, just as she has to face what's happening at home - that her withdrawal does not come without a cost, and her beloved brother is paying the price. Now she finds herself at a crossroads - repeat her mother's mistakes or face the awful truth. And it all boils down to a choice between fear and hope.

Seeking Peace May 19 2021 "An absorbing chronicle of discovery" (Booklist) from the #1 New York Times bestselling author of Reviving Ophelia and The Shelter of Each Other Like most lives, Mary Pipher's is filled with glory and tragedy, chaos and clarity, love and abandonment.

She spent her childhood in small Midwestern towns, the nurturing daughter of a doctor mother and a restless, jack-of-all-trades father. Later, as a wife, mother, and therapist, she was able to do what she most enjoyed: learn about the world and help others. But after the surprising success of *Reviving Ophelia*, she found herself overwhelmed by the demands on her time and attention. In 2002, Pipher experienced a meltdown. She realized that success and fame were harming her, and she began the long journey to a quieter, more meditative life that would carry her toward self-acceptance and joy. In *Seeking Peace*, Pipher tells her own remarkable story, and in the process reveals fundamental truths about our individual search for happiness and love. Candid, surprising and moving, *Seeking Peace* offers a map for our own journey toward a more fulfilling, more joyously lived life.

The Vintage Mencken Mar 29 2022 This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: ...earth. r' = radius of moon, or other body. P = moon's horizontal parallax = earth's angular semidiameter as seen from the moon. f = moon's angular semidiameter. Now $\sin P$ (in circular measure), $r' - r = r$ (in circular measure); $\therefore r : r' :: P : P'$, or (radius of earth) : (radius of moon) :: (moon's parallax) : (moon's semidiameter). Examples. 1. Taking the moon's horizontal parallax as $57'$, and its angular diameter as $32'$, find its radius in miles, assuming the earth's radius to be 4000 miles. Here moon's semidiameter = $16'$; $\therefore 4000 :: 57' : 16'$; $\therefore r = 400 \frac{16}{57} = 1123$ miles. 2. The sun's horizontal parallax being $8''$, and his angular diameter $32'$ find his diameter in miles. ' Am. 872,727 miles. 3. The synodic period of Venus being 584 days, find the angle gained in each minute of time on the earth round the sun as centre. Am. $1''$ -54 per minute. 4. Find the angular velocity with which Venus crosses the sun's disc, assuming the distances of Venus and the earth from the sun are as 7 to 10, as given by Bode's Law. Since (fig. 50) $S V : V A :: 7 : 3$. But $S r$ has a relative angular velocity round the sun of $1''$ -54 per minute (see Example 3); therefore, the relative angular velocity of $A V$ round A is greater than this in the ratio of 7: 3, which gives an approximate result of $3''$ -6 per minute, the true rate being about $4''$ per minute. Annual ParaUax. 95. We have already seen that no displacement of the observer due to a change of position on the earth's surface could apparently affect the direction of a fixed star. However, as the earth in its annual motion describes an orbit of about 92 million miles radius round the sun, the different positions in space from which an observer views the fixed stars from time to time throughout the year must be separated ...

Odes Jul 01 2022 'Interspersed with acts of breathtaking linguistic daring.' Charlotte Mendelson, *Observer Book of the Year* Opening with a powerful and tender 'Ode to the Hymen', Sharon Olds uses this age-old poetic form to address many aspects of herself, in a collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as 'Ode to My Sister', 'Ode of Broken Loyalty', 'Ode to My Whiteness', 'Blow Job Ode', 'Ode to the Last 38 Trees in New York City Visible from This Window', Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her - the 'Sheffield Mountain Ode' for Galway Kinnell is one of the most stunning pieces here - Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.
