The Irish Coroner Jun 05 2020 Coroners who conducted inquests into sudden and suspicious deaths in nineteenth century Ireland were viewed with disdain and disrespect in a society that was highly politicised and deeply divided. Whilst men who served in the role represented the authority of government and the need for social order and justice, it often put them at odds with Ireland's local elite - particularly when identifying corruption, social and moral deficit and sectarian murder. Were coroners dishonest or did they share the reputation of their English counterparts as 'magistrates of the people'? *The Irish Coroner* is an historical and social analysis of the coroner in pre-Famine, Famine and post-Famine Ireland and exposes a gap in Irish administrative history. It uses the life and work of William Charles Waddell, Esq. who served as coroner in north County Monaghan over three decades from 1846 to 1877 as a case study. The book uses a unique set of coroners' inquests. It is an uninterrupted set of records over 31

years of an Irish coroner's career. There is no other like it. The Irish Coroner offers, for the first time, the social importance of death investigation within local communities, particularly during

The Burning Jan 01 2020 In the icy, languid days following Christmas, a dense fog has settled over the Wye Valley. Local Coroner Jenny Cooper, still reeling after being abandoned by her partner for the festivities, is called to the scene of a dreadful tragedy: a house has been burned to the ground, revealing its terrible secrets. Secret Remains Aug 27 2019 A cold case murder, a grisly discovery, and a viper's nest of resentment, betrayal, and dirty secrets converge in this mystery perfect for fans of Kathy Reichs and Jayne Ann Krentz. It's been 12 years since Sandi Parkman went missing after being dropped off at home by her schoolmate, Nick Larson, now the Sheriff of Freeport, Michigan. When a construction crew unearths Sandi's bones--along with Nick's letterman jacket and one of his hairs--Nick becomes suspect number one in the murder. Dr. Emily Hartford, the daughter of Freeport's medical examiner, is called in to investigate, but the case is about to get personal. Nick was Emily's high school love, and now she has to either clear his name--or contend that he's the killer. As she delves into the case, a host of other suspects emerge: a coterie of Nick's jock friends from high school; Sandi's sister, Tiffany, now a dancer at a local strip club; and James VanDerMuellen, a trust funder who's recently returned to Freeport. As the autumn skies darken over Freeport and the holiday season looms, Emily must sift through more than Sandi's brittle bones to solve the case. Can she exonerate Nick--and rekindle their long-smoldering romance? The race is on to find the truth.

The Coroner's Lunch Jul 31 2022 Life has taken a funny turn for Siri Paiboun. After years in obscurity, his country needs him. He is to be their only coroner. Because he's the only doctor left. It's not as flattering as it could be, and when one of the leaders' wives turns up in his hot, shabby, smelly morgue, and he's expected to solve her murder, things take a turn for the worse. He has no experience, training or equipment to speak of, and his only hope are his

two trusty assistants - neither of whom know anything either - and his own mental resources. As if this weren't enough, the tortured bodies of several soldiers start floating to the surface of a lake and this second case is even more politically charged than his first. Only Siri's wit, charm and sense of the ridiculous will get him through this...

SANSOM 1816 was the year without a summer. A rare climatic event has brought frost to July, and a lingering fog casts a pall over a Dublin stirred by zealotry and civil unrest, torn between evangelical and rationalist dogma. Amid the disquiet, a young nursemaid in a pious household conceals a pregnancy and then murders her newborn. Rumours swirl about the identity of the child's father, but before an inquest can be held, the maid is found dead. When Abigail Lawless, the eighteen-year-old daughter of Dublin's coroner, by chance discovers a message from the maid's seducer, she is drawn into a world of hidden meanings and deceit. An only child, Abigail has been raised amid the books and instruments of her father's grim profession. Pushing against the restrictions society places on a girl her age, she pursues an increasingly dangerous investigation. As she leads us through dissection rooms and dead houses, Gothic churches and elegant ballrooms, a sinister figure watches from the shadows - an individual she believes has already killed twice, and is waiting to kill again... Determined, resourceful and intuitive, Abigail Lawless emerges as a memorable young sleuth operating at the dawn of forensic science.

The Education of a Coroner Dec 12 2020 An "entertaining" (Booklist) account of the mysterious, hair-raising, and heartbreaking cases handled by the coroner of Marin County, California throughout his four decades on the job—from high-profile deaths and serial killers to inmate murders and Golden Gate Bridge suicides. Marin County, California is a study in contradictions. Its natural beauty attracts celebrity residents and thousands of visitors every year, yet the county also is home to San Quentin Prison, one of the oldest and largest penitentiaries in the United States. Marin ranks in the top one percent of counties nationwide in terms of affluence and overall health, yet it is far above the norm in drug overdoses and alcoholism, not to mention the large percentage of suicides that occur on the Golden Gate Bridge. Ken Holmes worked in the Marin County Coroner's Office for thirty-six years, starting as a

death investigator and ending as the three-term, elected coroner. As he grew into the job—one that is far different from the forensics we see on television—Holmes learned a variety of skills, from finding hidden clues at death scenes, interviewing witnesses effectively, managing bystanders and reporters, and preparing testimony for court to how to notify families of a death with sensitivity and compassion. He also learned about different kinds of firearms, all types of drugs—prescription and illegal—and about certain unexpected and potentially fatal phenomena, such as autoeroticism. Complete with poignant anecdotes, *The Education of a Coroner* is “riveting and complex...supremely entertaining reading material and...a fascinating and wildly informative dive into the mysterious world of death and decay” (Kirkus Reviews).

The Coroner's Lunch Apr 27 2022 Few, if any, characters in modern crime fiction can match the benign humour, the gentle wisdom or the sheer bloody-mindedness of Dr Siri Paiboun, septuagenarian chief coroner to the newly independent communist state of Laos.

Coroner at Large Mar 27 2022 To Thomas T. Noguchi, America’s most famous medical examiner, every death is a mystery—until the cause is found In his first book, the runaway bestseller *Coroner*, Dr. Noguchi wrote of his controversial investigations as medical examiner of Los Angeles County. In *Coroner at Large*, the man who has often been called the “Detective of Death” probes the mysteries surrounding the most celebrated criminal cases in recent American history. Using sophisticated techniques of modern forensic science and once again “telling it like it is,” Dr. Noguchi reveals the truth behind the headlines in the untimely deaths of show business celebrities: —The drowning of Beach Boy Dennis Wilson —The murder of Sal Mineo —The suicide of Freddie Prinze —The slaying of “Playmate of the Year” Dorothy Stratten —Elvis Presley’s fatal heart attack Forensic science, too, provides new clues to fascinating historical puzzles: the true fates of General George Custer, the Emperor Napoleon, and Adolf Hitler. In *Coroner at Large*, Dr. Noguchi brilliantly provides the missing links in our knowledge of these cases. Here, from his own investigations and his pioneering work in the field, we see forensic science in action, unraveling the mysteries of death—both natural and unnatural—in real-life cases that might have baffled even the great Sherlock Holmes.

The Medieval Coroner Aug 08 2020 The office of coroner was established in England in 1194; it has had an unbroken history, and has been exported to many countries, including the United States. At the zenith of his power, in the thirteenth and early fourteenth centuries, the coroner was concerned with many aspects of law and local

administration, and with some of the most tragic and dramatic episodes of medieval life. Coroners - 'keepers of the pleas of the crown' - had to be knights or substantial landowners; they were required to hold inquests on victims of suicide or violent death, receive abjurations of the realm (ceremonial undertakings by felons in sanctuary to leave the country), hear appeals and confessions of felony, and legalise any exactions, outlawries or subsequent pardons. Their responsibilities included the arrest of suspects and the safeguarding of property subject to forfeit; the coroners' rolls contained the written records of many official proceedings.

Coroner's Pidgin Oct 02 2022 “Allingham has that rare gift in a novelist, the creation of characters so rich and so real that they stay with the reader forever.” —Sara Paretsky World War II is limping to a close and private detective Albert Campion has just returned from years abroad on a secret mission. Relaxing in his bath before rushing back to the country, and to the arms of his wife, Amanda, Campion is disturbed when his servant, Lugg, and a lady of unmistakably aristocratic bearing appear in his flat carrying the corpse of a woman. The reluctant Campion is forced to put his powers of detection to work as he is drawn deeper into the case, and into the eccentric Caradocs household, dealing with murder, treason, grand larceny, and the mysterious disappearance of some very valuable art. “Margery Allingham deserves to be rediscovered.” —P.D. James “Margery Allingham was one of the greatest mid-20th-century practitioners of the detective novel.” —Alexander McCall Smith

Her estranged father, the local medical examiner, has had a massive heart attack and Emily is needed urgently to help with his recovery. Not sure what to expect, Emily races home, blowing the only stoplight at the center of town and getting pulled over by her former high school love, now Sheriff, Nick Larson. At the hospital, she finds her father in near total denial of the seriousness of his condition. He insists that the best thing Emily can do to help him is to take on the autopsy of a Senator’s teen daughter whose sudden, unexplained death has just rocked the

sleepy town. Reluctantly agreeing to help her father and Nick, Emily gets down to work, only to discover that the girl was murdered. The autopsy reminds her of her many hours in the morgue with her father when she was a young teen—a time which inspired her love of medicine. Before she knows it, she’s pulled deeper into the case and closer to her father and to Nick—much to the dismay of her big-city fiancé. When a threat is made to Emily herself, she must race to catch the killer before he strikes again.

JERVIS ON CORONERS. May 17 2021

Deadhouse Sep 20 2021 *Deadhouse: Life in a Coroner's Office* chronicles the exploits of a diverse team of investigators at a coroner's office in Pittsburgh. Ed Strimlan is a doctor who never got to practice medicine. Instead he discovers how people died. Mike Chichwak is a stolid ex-paramedic, respected around the office for his compassion and doggedness. Tiffani Hunt is twenty-one, a single mother who questions whether she wants to spend her nights around dead bodies. All three deputy coroners share one trait: a compulsive curiosity. A good thing too because any observation at a death scene can prove meaningful. A bag of groceries standing on a kitchen counter, the milk turning sour. A broken lamp lying on the carpet of an otherwise tidy living room. When they approach a corpse, the investigators consider everything. Is the victim face-up or down? How stiff are the limbs? Are the hands dirty or clean? By the time they bag the body and load it into the coroner's wagon, Tiffani, Ed, and Mike have often unearthed intimate details that are unknown even to the victim's family and friends. The intrigues of investigating death help make up for the bad parts of the job. There are plenty of burdens—grief-stricken families, decomposed bodies, tangled local politics, and gore. And maybe worst of all is the ever-present reminder of mortality and human frailness. *Deadhouse* also chronicles the evolution of forensic medicine, from early rituals performed over corpses found dead to the controversial advent of modern forensic pathology. It explains how pathologists “read” bullet wounds and lacerations, how someone dies from a drug overdose or a motorcycle crash or a drowning, and how investigators uncover the clues that lead to the truth.

As chief coroner of Baton Rouge, tending to the dead is Cataldie's job. A little town with big-city problems, Baton Rouge means "Red Stick"-

and lives up to its bloody name. Cataldie has faced unusual and disturbing cases, from tracking three serial killers on the loose simultaneously while working the scene of a Malvo/ Muhammad Beltway Sniper shooting, to helping apprehend Baton Rouge serial killer Derrick Todd Lee in a controversial case that was featured in an ABC Primetime Live special with Diane Sawyer and Patricia Cornwell. Cataldie's maverick ways have made him a favorite target of the media, but he offers no apologies, and speaks for those who cannot speak for themselves. Graphic and frank, this is his unique, up-close look at his life spent stalking death in the Deep South.

Maigret at the Coroner's Feb 23 2022 “One of the greatest writers of the twentieth century . . . Simenon was unequalled at making us look inside, though the ability was masked by his brilliance at absorbing us obsessively in his stories.” —The Guardian In Arizona on a study tour of America, Inspector Maigret observes a day in the life of a local coroner and becomes absorbed in a young girl's murder On his travels through the U.S., Maigret stops in Tucson, Arizona at the guidance of his FBI friend Harry Cole, who leaves him one day to observe a coroner's inquest. The body being examined is that of Bessie Mitchell, a young girl who died under suspicious circumstances—she spent a night drinking and driving with five young Air Force men and was found the next morning on the tracks, run over by a train. Maigret quickly becomes engrossed in the hearing and the men's conflicting stories, leaving questions of who bears the guilt for this death and who can be trusted at all.

Kennedy, Sharon Tate, Janis Joplin, William Holden, Natalie Wood, John Belushi, and many of his other important cases Now, for the first time, Dr. Noguchi recounts his colorful and stormy career, explains his innovative techniques, and reveals the full story behind his most fascinating investigations.
