All Business is Local Dec 14 2020 What's the most important factor in business today? Global competition? Digital development? Or is the age-old concept of 'place' actually the key to success even in today's advanced economy? Marketing experts John Quelch and Katherine Jocz believe that huge opportunities are on offer to marketers and business leaders if they stay focussed on the power of locality. In All Business Is Local, they propose a radically different way of looking at marketing. As society becomes increasingly globalized and obsessed with the virtual world, businesses can easily forget that 'place' is more relevant than ever, and that it remains a major factor in the way we organize our lives. Radically redefining 'place' as a business imperative in the global economy, Quelch and Jocz explore five categories (psychological, physical, virtual, geographical and global) and teach us that just as customers' relationships to places profoundly affect their relationships to businesses, today's companies - large and small - have to be local as well as global in order to succeed.

All In Startup Feb 02 2020 If Owen Chase can't find a way to turn his company around in the next nine days, he'll be forced to shut it down and lay off all of his employees. He has incurred substantial debt and his marriage is on shaky ground. Through pure happenstance, Owen finds himself pondering this problem while advancing steadily as a contestant at the World Series of Poker. His Las Vegas path quickly introduces him to Samantha, a beautiful and mysterious mentor with a revolutionary approach to entrepreneurship. Sam is a fountain of knowledge that may save his company, but her sexual advances might prove too much for Owen's struggling marriage. All In Startup is more than just a novel about eschewing temptation and fighting to save a company. It is a lifeline for entrepreneurs who are thinking about launching a new idea or for those who have already started but can't seem to generate the traction they were expecting. Entrepreneurs who achieve success in the new economy do so using a new "scientific method" of innovation. All In Startup demonstrates why four counterintuitive principles separate successful entrepreneurs from the wanna-preneurs who bounce from idea to idea, unable to generate real revenue. You will likely get only one opportunity in your life to go "all in" in on an idea: to quit your job, talk your spouse into letting you drain the savings account, and follow your dream. All In Startup will prepare you for that "all in" moment and make sure that you push your chips into the middle only when the odds are in your favor. This book holds the keys to significantly de-risking your idea so that your success appears almost lucky. Join Owen and Sam for this one-of-a-kind journey that will set you on the right path for when it's your turn to put everything on the line.

All the Brains in the Business Aug 22 2021 The power of gender difference, not gender equality, is a secret source for success. Some smart businesses are starting to wake up to this fact. This book explores why and how. Properly valuing brain gender diversity in the workplace is one of the biggest and largely untapped sources of competitive advantage for modern businesses. Recent advances in neuroscience provide the key to unlocking it. Modern research shows that there are gender-based differences in the brain – it's just not as simple as a binary between a 'male brain' and 'female brain'. In fact, our brains are like a mosaic where many of the tiles are available in thousands of shades on a spectrum between pink and blue. The problem is that our workplaces tend to be governed by structures, processes and cultures that are practically pure blue. All the brains in the business that are elsewhere on the spectrum cannot thrive as they might, so sources of productivity, creativity and agility go untapped. Anyone who manages people needs to understand how the brain works and the impact it has on how people work together as teams. Anyone who wants to unlock the talent and productivity of all of their people needs to understand how recent findings around male- and female-type brains should shape the way they manage. Leading applied neuroscientists and international corporate coaches Kate Lanz and Paul Brown show you why and how to access all the brains in your business.
