**Flame and Fortune in the American West** Aug 20 2019 *Flame and Fortune in the American West* creatively and meticulously investigates the ongoing politics, folly, and avarice shaping the production of increasingly widespread yet dangerous suburban and exurban landscapes. The 1991 Oakland Hills Tunnel Fire is used as a starting point to better understand these complex social-environmental processes. The Tunnel Fire is the most destructive fire—in terms of structures lost—in California history. More than 3,000 residential structures burned and 25 lives were lost. Although this fire occurred in Oakland and Berkeley, others like it sear through landscapes in California and the American West that have experienced urban growth and development within areas historically prone to fire. Simon skillfully blends techniques from environmental history, political ecology, and science studies to closely examine the Tunnel Fire within a broader historical and spatial context of regional economic development and natural-resource management, such as the widespread planting of eucalyptus trees as an exotic lure for homeowners and the creation of hillside neighborhoods for tax revenue—decisions that produced communities with increased vulnerability to fire. Simon demonstrates how in Oakland a drive for affluence led to a state of vulnerability for rich and poor alike that has only been exacerbated by the rebuilding of neighborhoods after the fire. Despite these troubling trends, *Flame and Fortune in the American West* illustrates how many popular and scientific debates on fire limit the scope and efficacy of policy responses. These risky yet profitable developments (what the author refers to as the Incendiary), as well as proposed strategies for challenging them, are discussed in the context of urbanizing areas around the American West and hold global applicability within hazard-prone areas.

*A Change of Fortune* Oct 22 2019 Lady Eliza Sumner is on a mission. After losing her family, her fiance, and her faith, the disappearance of her fortune is the last straw. Now, masquerading as Miss Eliza Sumner, governess-at-large, she's determined to find the man who ran off with her fortune, reclaim the money, and head straight back to London. Much to Mr. Hamilton Beckett's chagrin, all the eyes of New York society--all the female ones, at least--are on him. Unfortunately for all the matchmaking mothers and eligible daughters, he has no plans to marry again, especially with his hands full keeping his business afloat and raising his two children alone. When Eliza's hapless attempts to regain her fortune put her right in Hamilton's path, sparks instantly begin to fly. The discovery of a common nemesis causes them to join forces, but with all their plans falling by the wayside and their enemies getting the better of them, it will take a riot of complications for Hamilton and Eliza to realize that God just might have had a better plan in mind all along. "Set in New York City circa 1880, Turano's historical romance has witty dialogue, a spunky heroine, a bounty of humor, and a fast-paced plot. There are wonderful secondary characters, too, including an ankle-biting boy, a relentlessly matchmaking mother, and a full cast of despicable villains. *A Change of Fortune* will make a delightful addition to any library." --Booklist (starred review)

"Turano's charming story of losing and gaining both wealth and love in 1880s New York City will certainly please fans of witty and classic romance stories."--RT Book Review "[A] delightfully lighthearted debut novel."--Desert News

**The Millionaire Fastlane** Sep 13 2021 10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a little something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

**Very Special Ships** Jan 25 2020 *Very Special Ships* is the first full-length book about the six Abdiel-class fast minelayers, the fastest and most versatile ships to serve in the Royal Navy in the Second World War. They operated not only as offensive minelayers – dashing into enemy waters under cover of darkness – but in many other roles, most famously as blockade runners to Malta. In lieu of mines, they transported items as diverse as ammunition, condensed milk, gold, and VIPs. Distinguished by their three funnels, the Abdiels were attractive, well-designed ships, and they were also unique – no other navy had such ships, and so they were sought-after commands and blessed with fine captains. To give the fullest picture of this important class of ships, the book details the origins and history of mines, minelayers, and minelaying; covers the origins and design of the class; describes the construction of each of the six ships, and the modified design of the last two; tells in detail of the operational careers of the ships in the second World War, when they played vital roles in the battle of Crete and the siege of Malta, plied the hazardous route to Tobruk, and laid mines off the Italian coast. The post-war careers of the surviving ships is also documented. Written to appeal to naval enthusiasts, students of World War II and modelmakers, the author tells the story of these ships through first-hand accounts, official sources, and specially- commissioned drawings and photographs.

The man who asked and listened for the answer, Napoleon Hill, is now counted in the top ranks of the world's winners himself. The most famous of all teachers of success spent "a fortune and the better part of a lifetime of effort" to produce the "Law of Success" philosophy that forms the basis of his books and that is so powerfully summarized in this one. In the original Think and Grow Rich, published in 1937, Hill draws on stories of Andrew Carnegie, Thomas Edison, Henry Ford, and other millionaires of his generation to illustrate his principles. In the updated version, Arthur R. Pell, Ph.D., a nationally known author, lecturer, and consultant in human resources management and an expert in applying Hill's thought, deftly interweaves anecdotes of how contemporary millionaires and billionaires, such as Bill Gates, Mary Kay Ash, Dave Thomas, and Sir John Templeton, achieved their wealth. Outmoded or arcane terminology and examples are faithfully refreshed to preclude any stumbling blocks to a new generation of readers.

**Stand Fast, Craig-Royston!** May 09 2021 Old Mr. Bethune imagines himself the descendant of an ancient Scotch family, whose motto for centuries has been "Stand Fast, Craig-Royston." He is engaged in getting up a work on Scotch ballad poetry, and imagines he has squandered a fortune. He feels the world owes him a living, and, greatly to his grand-daughter Maisie's mortification, he accepts favors from all sides. **The Psychology of Money** Nov 15 2021 Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.
