Life Is A Temp Position Aug 29 2022 What would you do if you seemed to be immortal? How would you spend all that time? And would you ever write a memoir? The narrator of Life Is A Temp Position says he's tried seven times before. He says he's almost a thousand years old, and still doesn't know how or why he's immortal. And it doesn't matter. He's one of the richest people in the world. The true top 1%. Or so he thinks. Eric has seen things that most people don't know were ever even there. He used to be the Black Knight, of Arthurian Legend. In the mid-1600s he helped kill the last two Thunderbirds - or dragons - in North America. He was treated like a living god in El Dorado before the arrival of Spanish conquistadors. He's known as something of a demon in the criminal underworld. But the façade of a man in control disintegrates as he comes to terms with his own identity, and those of the other immortals he finds. And battles. And loves.

Basketball Position Metric: the Evolution Is Being Televised May 14 2021 In sports proper identity is key. We celebrate players, we glorify their existence, we marvel at their talent, and we cherish the moments that they give us. But the game that they are playing goes deeper than the surface we see. Who are they? What are they? Positions were given out to players over 70 years ago and we continue to identify them with just these labels. In doing this, we've ignored a huge component that plays a part in the world we live in. And that's evolution. In this book Rashad takes us on an exciting journey in which he tells the stories of players, identifies them properly, and he dissects the game from where it was to where it is today. He shares never heard before stories of the games' greatest players, and rearranges the legacies of many with his new position metric.
